Hershey's ONLY for smores! It's a summer staple!! I keep extra in my freezer when I need a sweet treat. I love that they are easy to break off just the right amount. The package is easy to open.

The best pure milk and Hershey's chocolate is the best; its quality is 100% chocolate, its packaging is on another level, its contents are fabulous, eye-catching appearance, and excellent value. I would buy it a thousand times over.

Hershey's milk chocolate is always good and these are the perfect size when you just want a couple pieces to curb a craving. These are also good for adding to cookies or cupcakes or for just a bit of melted chocolate.

We bought these to give out at my daughter's birthday party and they were so yummy! They all came individually wrapped. Each child were given one from into their gift bag. The texture and color were fresh and no different than what you would buy at a store. It is the perfect variety of chocolates, even the adults were able to have onel I will definitely be purchasing again.

I love the way it's just simple chocolate but it's really good. The melt is really good if you like the chocolate I feel like it's more of a softer texture rather than hard, it's easy to bit into
