

NEW INITIATIVE, SUSTAINABLE DAIRY PA, SPARKS PROMISE FOR MORE CLIMATE-FRIENDLY DAIRY SUPPLY CHAIN IN CHESAPEAKE BAY WATERSHED

JUNE 30, 2021

The Hershey Company, Land O’Lakes, Inc., and the Alliance for the Chesapeake Bay have partnered to implement on-farm best management practices to reduce greenhouse gas emissions and help improve water quality in the Chesapeake Bay watershed.

“We recognize that global impact means teaming up with other leading organizations like The Hershey Company and the Alliance for the Chesapeake Bay, and we’re excited to support this new initiative,” said Glenda Gehl, Land O’Lakes Senior Director of Member Relations. “Through the Land O’Lakes Dairy 2025 Commitment, we are committed to developing measurable ways for our farmer-members to reduce their environmental footprint in a manner that supports on-farm profitability and meets the expectations of our customers and consumers.”

“As we continue on our path to reduce our environmental footprint and address climate change, we’re excited to partner with Land O’Lakes and the Alliance for the Chesapeake Bay to promote best on-farm sustainable management practices in our dairy supply chain,” said Eric Boyle, Director of Commodities Procurement at The Hershey Company. “Not only will this initiative help Hershey to reduce our GHG footprint and improve water quality in the Chesapeake Bay and other watersheds in the region, it will also help to improve soil health and protect biodiversity, and strengthen our connection to our dairy producers who are so integral to the creation of Hershey’s Milk Chocolate.”
